

THE DIFFERENCE IS DATA.[™]

SAFE. EFFECTIVE. PROVEN.

The only device for First MTP Joint Osteoarthritis backed by Level 1 clinical evidence

Dear User Group Attendee.

We are looking forward to spending an evening with you at the 1st Cartiva[®] User Group Meeting in the UK.

You will hear presentations from Judith Baumhauer, MD, MPH and other MOTION STUDY investigators on:

- Correlation of Hallux Rigidus Coughlin Grade with First MTP Motion, Intra-Operative Cartilage Loss and Treatment Success for 1st MTP Arthrodesis and Hemi-Arthroplasty
- Revision of Implant to Great Toe Fusion
- Mid Term Outcomes of Synthetic Cartilage Implant Hemiarthroplasty of 1st MTPJ in advanced Hallux Rigidus
- The Influence of Patient Factors on the Outcome of Synthetic Cartilage Implant Hemiarthroplasty versus First Metatarsophalangeal Joint Arthrodesis in Advance Hallux Rigidus

Presentation followed by evening meal and further Q&A opportunities. Please email any dietary requirements to jamie@bio-vation.co.uk
