

CARTIVA™
Synthetic Cartilage Implant

Exclusively distributed throughout
UK and Ireland by Biovation UK Ltd.

BIOVATION
A better way

Relieves MTP arthritis pain while maintaining *joint mobility*

CARTIVA™ Advantages

- **Viscoelastic implant designed to mimic natural cartilage**

An MTP surface replacement made of a durable viscoelastic polymer provides flexible cushioning intended to relieve bone-on-bone arthritis pain.

- **Maintains joint mobility required for sports**

Avoid fusion! Patients maintain mobility of the joint allowing participation in athletics following surgery.

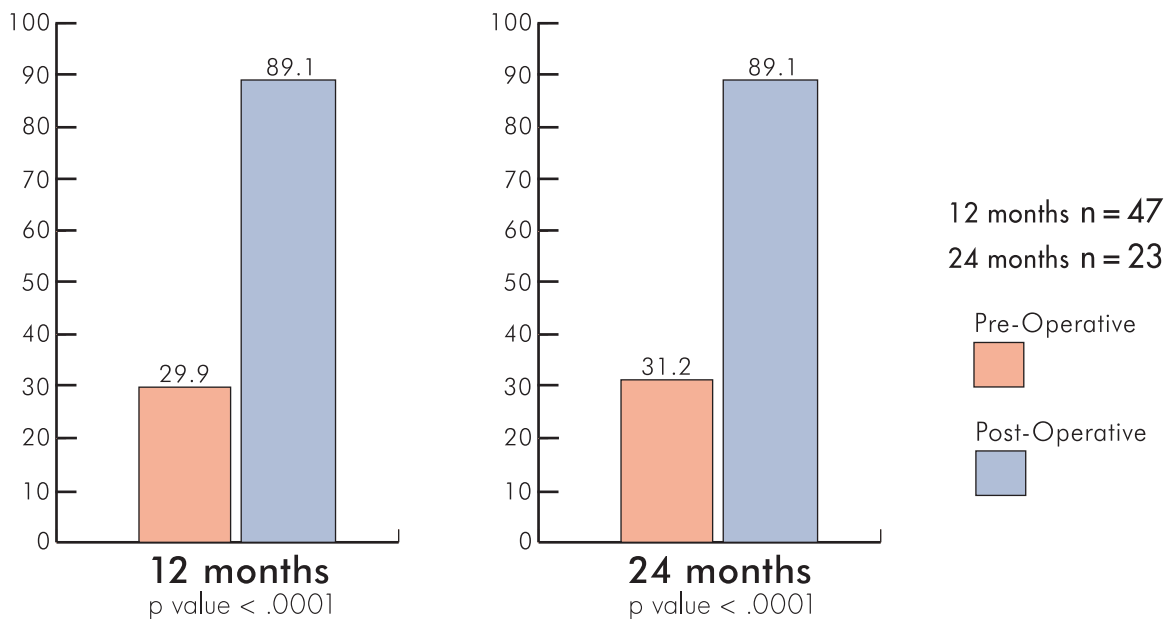

- **No boot required**

Recovery and rehabilitation protocol eliminates the need for immobilization. Patients benefit from a quick return to an active lifestyle.

AOFAS score for Cartiva™ implants of the 1st MTP Joint

The American Orthopaedic Foot and Ankle Society (AOFAS) score- Hallux
Dieter Nollau, MD - European Foot Institute

CARTIVA™
Synthetic Cartilage Implant

Offer your patients Function... **without Fusion!**

Exclusively distributed throughout
UK and Ireland by Biovation UK Ltd.

BIOVATION
A better way

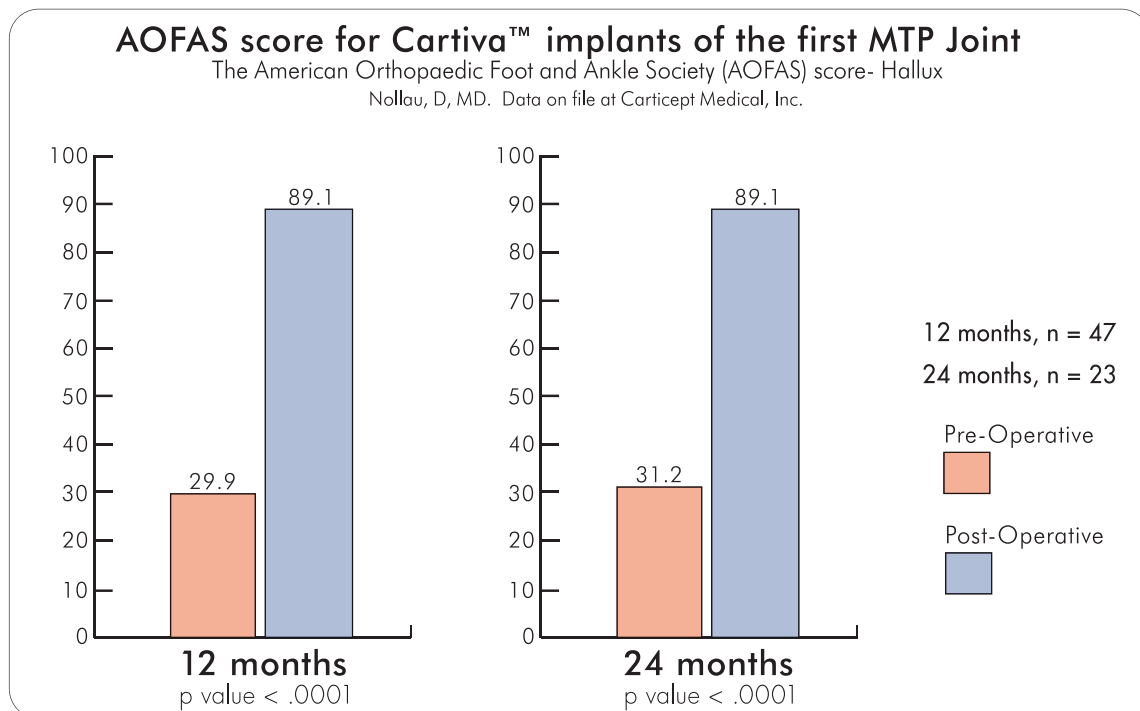

Function... without fusion

An alternative to fusion of the first MTP joint.

CARTIVA™ Advantages

- **Mimics natural cartilage to relieve arthritis pain**
The durable viscoelastic MTP surface replacement provides flexible cushioning intended to maintain natural joint mechanics.
- **Maintains joint mobility**
By preserving the joint, patients may maintain the mobility desired for an active lifestyle.
- **Simple procedure allows for quick recovery**
Recovery and rehabilitation protocol eliminates the need for immobilisation. Patients may benefit from a quick return to their normal activities.
